

Teens in our region are counting on ALL of US

At Pro Deo Youth Center, we welcome all students through our doors & love them on their darkest days & celebrate with them on their brightest days.

According to the Afterschool Alliance:

Every \$1 invested in youth programming, like Pro Deo, reduces the community costs at least \$3.

A permanent home for a long-term commitment to our youth and their future.

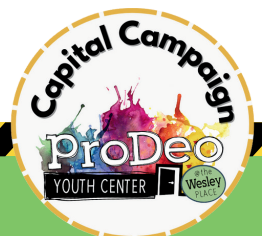

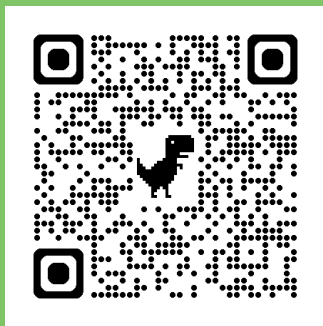

What will the new building accomplish?

Increased Capacity: Pro Deo's current space can serve 35 teens with adult supervision at once. The new space will have the capacity to serve 80 participants with adult supervision.

Expanded Programs: Pro Deo is planning to serve teens in new ways in the Wesley Place, including job training & entrepreneurial programs, Saturday morning workshops, alumni events & more.

Increased Prevention Services: Through our recent alliance with ReDiscover Behavioral Health, Pro Deo will provide more support regarding counseling services for our youth and their families. However, Pro Deo remains a separate 501(c)3 nonprofit providing many other services and programs outside of ReDiscover's capacity and funding ability. The Pro Deo Youth Center @ the Wesley Place will need continued community support from our volunteers, businesses, and financial donors to meet all of the needs of our youth.
